

# TAKTIS

## Touch Screen Technology

# Highly Integrated Configurable System

- Network up to 128 panels and Taktis Vision repeaters.
- Ockular colour graphics system.
- VR Nimbus cloud based reporting.
- Vizulinx - Email, SMS, BMS reporting.
- Flexible touch screen functionality - soft keys, logos, colour and lay out.
- Network options: Fibre - Fibre, Fibre - Copper, Copper - Copper.

# Upgrading a site or Installing a fire panel in a new location – think TAKTIS

TS1 panel  
for up to 4 loops

TS2 panel  
for up to 8 loops

TS3 panel  
for up to 16 loops

## Flexibility including:

- Wireless translator module on loop to use wireless devices.
- Programmable EOL conventional zones saving costs in finding existing EOL.
- Loop powered sounders with multiple tones allowing AAF, Lockdown & Lockout tones without additional cabling.
- Inclusion of next generation Hochiki devices on existing loops:  
addressable beams, 4 I/O loop powered module (single loop address)  
AS7240.13 VADs and sounders.

## Taktis Systems currently installed throughout Australia & Globally

Hospitals

Education

Defence

Retail Centres

Museums

Correctional Centres

Mining

Power Stations

# Upgrade your existing panel

from this

to this

Keep your existing Hochiki devices & maintain product approvals

HRE / GTP Detectors  
( Digital )

GTP / ESP Detectors  
( ISO International Standard )

1997

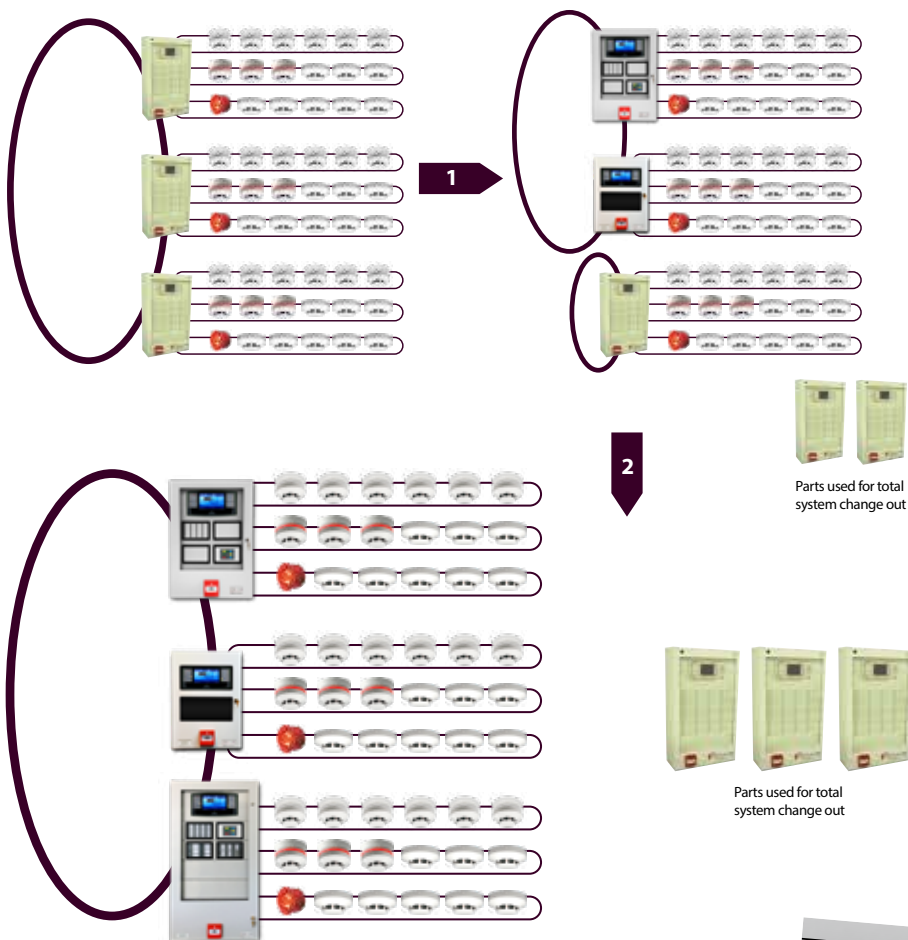

2016

FUTURE

- In 2016, NFP, Firenet and Phoenix Fire panels were issued with their end of life statement by Kidde.
- To provide an upgrade path, Incite Fire working with Hochiki Corporation & Kentec introduced the Syncro AS and Taktis Fire panels.
- By utilising the Syncro AS and Taktis with an existing system, you can cost effectively change out one system to another while progressively upgrading the detectors, as required, to future proof the site.
- Hochiki Australia's Analogue Sensors are certified & conform with AS7240.5, AS7240.7, AS1603.1 or AS1603.2 when connected to Taktis.

Certificate num.	Registration date	Version	Valid until	Page 1 of 2
afp - 2014	21-Jul-2008	Number 18	Issue date: 30-Apr-2021	
<b>Product designation</b>				
Hochiki, Model ALX-AS, photoelectric smoke detector (Refer to the Schedule/enclosures for further specified details)				
<b>Agent/distributor</b>				
Hochiki Australia Pty Ltd 393 Park Road, REGENTS PARK, NSW, AUSTRALIA, 2143				
<b>Registrant</b>				
Hochiki Australia Pty Ltd 393 Park Road, REGENTS PARK, NSW, AUSTRALIA, 2143				
<b>Producer</b>				
Hochiki Corporation 30-43, Kamisaki 2-chome, SHINAGAWA-KU, TOKYO, JAPAN, 141				
<b>Conformance criteria and evaluation</b>				
The Hochiki, Model ALX-AS, photoelectric smoke detector has been evaluated and verified as conforming with the relevant requirements of the following criteria.				
1. Australian Standard AS 7240.7-2004, Fire detection and alarm systems - Part 7: Point-type smoke detectors using scattered light, transmitted light or ionization (ISO 7240-7:2003, M00Y).				
<b>Limitations/conditions of conformance</b>				
Limitations/conditions of conformance, where identified on this certificate, are derived from qualifications from evaluation(s) for conformity and/or other related technical documentation. All details with respect to design, assembly and installation instructions and restrictions should be checked against the producer's current technical manual/data sheets and the requirements of the Authority being jurisdiction.				
Specified limitations/conditions, determined from the evaluation for conformity, include the following.				
1. This equipment is specified by the Producer for connection and use only with Fire detection control and indicating equipment (FDICE) produced and designated as follows.				
<ul style="list-style-type: none"> <li>• Kidde Australia Pty Ltd NFP1, NFP2, Phoenix, FIRENET</li> <li>• Nemco Electronics Ltd Taktis, Syncro AS</li> </ul>				
Issued by David Whittaker Executive Officer - ActiveFire Scheme
