

incite fire

YES! WE'RE OPEN

We are here to help you with your fire detection needs and can ship items as required.

Based on Government advice we have implemented the following:

- Call ahead on 02 9644 7144 to place your order for quick pickups at your local branch. Pricing and Stock levels now available for account customers on the Incite Fire website.
- Phone or email to communicate with local technical, sales and administration staff
- Call our sales team to discuss your site specific and service stock requirements

We have strong stock holdings in our bulk warehouse and local branch network throughout Australia with our delivery service unaffected at this time.

Thank you for your ongoing support, we look forward to helping support you through these difficult times.

Rod Skuse
