

# Thomas Embling Hospital, Melbourne, AU

Early warning fire detection for a mental health hospital

Reference Report

The Thomas Embling hospital is operated by the Victorian Institute of Forensic Mental Health and is a secure hospital for patients from the criminal justice system who are in need of psychiatric assessment, care and treatment.

Thomas Embling Hospital is a high-security forensic mental health hospital located in Fairfield, an inner Melbourne suburb in Victoria, Australia. The facility is operated by the Victorian Institute of Forensic Mental Health, known as Forensicare, who are responsible for providing adult forensic mental health services in Victoria.

The Hospital is located adjacent to extensive parklands. The facility provides acute and continuing care care and includes a dedicated women's unit. The hospital was purpose designed and built to further the delivery of advanced clinical programs in the treatment of patients suffering from acute mental health issues.

Securiton has equipped the site with an ASD (aspiration smoke detection) who's early warning capability are bringing the extra time needed for verification and safe evacuation in case of an incident.
