

ASD-P

4 Metre Pipe 25mm

ASD-P piping, integral to aspirated smoke detection systems, is identifiable by its white colour with a distinctive red marking. Compliant with industry standards, this colour scheme ensures clear adherence to installation guidelines. ASD-P piping is an essential component in critical applications such as computer rooms, warehouses, and other environments where aspirated smoke detection is required.

ASD-P piping is fully compatible with Securiton ASD detector range as well as the sample point pipe clips ranging from 2mm - 7mm

TECHINCAL SPECIFICATIONS

Composite material	Rigid PVC - Polyvinyl chloride
Size	25mm
Length	4 Meters
Colour	White with Red Marking
Temperature rating	-20°C to +70°C
Flammability	Self extinguishing
Thermal expansion	7 x 10 ⁻⁵ per °C <small>7mm change in length for every 10 metres for every 10° C change in temperature.</small>
Ends	1 standard, 1 bell end
