Description

The Media Gateway Card is a communication device for the Taktis Fire Alarm Control Panel. The Card facilitates seamless integration with other Kentec products such as the Ockular* Graphical Fire Management System, Virtual Resource and the Vizulinx Alarm Management Solution.

Utilising the Media Gateway Card also enables assimilation with third-party IP networks and equipment.

In common with other Additional Cards in the Taktis range, the Media Gateway Card features simple 'plug-in' connectivity and is fully configurable using Loop Explorer 2 software.

*Media Gateway Card supplied with Ockular as standard.
