

# TCH-B200

## Hand Held Address Programmer

### Features

- \* Lightweight design
- \* Quick and reliable addressing
- \* Over 8000 address settings from one battery
- \* Displays sensor analogue value

### Description

Model TCH-B200 is a hand held address programmer designed to address the ESP range of Sensors and all other addressable devices such as wall sounders, minimodules and manual call points (with the use of a programming lead – sold separately).

The unit is designed to be light, robust and easy to use and operates from a single PP3 size battery, which gives the capacity for up to 8000 operations. The programmer is also capable of displaying the sensor analogue values.

<b>Specification</b>	
Ordering Codes	TCH-B200
	PL-3 (programming lead)
Battery Type	9 V dc
Operating Temperature Range	-10 °C to +50 °C
Colour / Case Material	White / ABS
Weight (g) / Dimensions (mm)	140 (Including Battery) / L160 x D30 x W99.5
