

Fire Alarm Remote Indicator REM-CL

Overview

Our cup type remote indicators are supplied ready to install, complete with fixing screws & screw covers. The red LED protrudes from the main body making it easily visible from all directions. There is a built in cable clamp on the remote indicator to prevent excessive tension at the terminals.

Remotes Available:

- In Room
- In Roof Space
- In Concealed Space
- In Ceiling

Features

- Cup type design
- Moulded plastic
- Red LED
- Screw covers
