Data Sheet

SPSM-CF0720 • 200mm (8") 15W 100V Fire Speaker White AS ISO7240.24

Overview

The re & evacuation safety standard has changed to AS ISO 7240.24: 2015.
This new standard will be implemented in new building projects. Redback is releasing this new range of horn and ceiling speakers to meet this standard to ensure evacuation installations in new buildings meet the required code.

Designed to meet AS ISO7240.24:2015 (approval pending). Fire versions of our popular One-Shot SPSM-CF0720 speaker. It features flame retardent housing material and a tuned PA driver to suit the new approval requirements. One-Shot design simply snap-fits in seconds to the surface mounting ring, reducing installation time considerably. The C 0713 adaptor plate enables the surface mounting ring to be fixed to a standard conduit junction box without the need for drilling into the slab.
