STI EXTINGUISHER AND HOSE REEL STOPPER

Stop theft, vandalism or misuse of fire extinguishers and hose reels.

If you are fed up with replacing or recharging your fire extinguisher, this sturdy, tamper-proof, self-contained device is the answer. It has proven highly effective in helping stop theft, misuse or vandalism of fire extinguishers and hose reels.

The Extinguisher Stopper will leave the extinguisher totally accessible for emergencies and will not interfere in the event of a real fire.

HOW IT WORKS

Its highly visible 'stop sign' design discourages wrongful use. If the protected fire extinguisher is moved from its normal position, an integral sounder emits a piercing alarm. The device is easy to install and a deactivation cable is supplied for ease of servicing the extinguisher.

The Extinguisher Stopper is supplied complete with an operating cable kit and a 9V PP3 alkaline battery.
