

STI Call Points

Integral Polycarbonate Cover

STIIC

Features

- The clear Integral Cover fits directly onto the STIRPRF01 or STIRPRS01 ReSet Call Point
- It easily attaches to moulded slots on the sides of the call points

Description

Moulded from tough, clear UV-stabilised polycarbonate, it can withstand tough knocks while protecting the unit from vandalism, damage or accidental activation.

The Integral Cover will protect units from minor damage or tampering.
It easily attaches to moulded slots on the sides of the products.
