

Certificate of Conformity

Certificate num.	Registration date	Version	Valid until	
afp - 2861	10-Oct-2013	Number 11	Issue date 4-Apr-2024	30-Apr-2025

Product designation

STI, RP Series (Electrical Arrangement Series 01), re-settable, Type A, manual call points
(Refer to the Schedule/enclosures for further specified details)

Agent/distributor

Incite Fire
Block Y, Unit 1, Regents Park Estate, 391 Park Road, REGENTS PARK, NSW, AUSTRALIA, 2143

Registrant

Incite Fire
Block Y, Unit 1, Regents Park Estate, 391 Park Road, REGENTS PARK, NSW, AUSTRALIA, 2143

Producer

Safety Technology International (Europe) Limited
Unit 49G Pipers Road, Park Farm Industrial Estate, REDDITCH, Worcestershire, UNITED KINGDOM, B98 OHU

Conformance criteria and evaluation

The STI, RP Series (Electrical Arrangement Series 01), re-settable, Type A, manual call points have been evaluated and verified as conforming with the relevant requirements of the following criteria.

1. European Standard EN 54-11(Type A):2001, 'Fire detection and fire alarm systems. Manual call points'.

Limitations/conditions of conformance

Limitations/conditions of conformance, where identified on this certificate, are derived from qualifications from evaluation(s) for conformity and/or other related technical documentation. All details with respect to design, assembly and installation instructions and restrictions should be checked against the producer's current technical manual/data sheets and the requirements of the Authority having Jurisdiction.

Specified limitations/conditions, determined from the evaluation for conformity, include the following.

- i. Compatibility of this actuating device with new or existing control and indicating equipment should be verified prior to installation.

This certification is issued within the scope of CSIRO Verification Services – Rules governing ActivFire Scheme and is valid only for the product(s) as submitted for evaluation and verification of conformity, subject to the following conditions.

- Reference to details, limitations and requirements, where documented as a schedule/enclosure with this certificate.
- The Registrant is responsible for their attestation of conformity and ensuring that on-going production complies with the conformance criteria defined in this certificate.
- This certificate will not be valid if any changes or modifications are made to the product which have not been notified and validated by CSIRO Verification Services.
- This certificate is subject to periodical re-validation upon verification that all requirements, as determined by the conformity assessment body, continue to be satisfactorily met by the Registrant.
- This certificate may only be reproduced in its published form, without modification and inclusive of all schedules/enclosures.
- Any changes, errors or omissions, must be submitted in writing and if necessary or requested, substantiated with relevant evidence.
- Any representations, such as advertising or other marketing related activities or articles shall reflect the correct contents of this certificate and conform with all relevant trade practices and consumer protection legislation and regulations.
- Any terms or conditions of use as applicable to content and documentation as published or accessed through web sites administered by the CSIRO Verification Services.

Issued by

Kaj Loh
Executive Officer – ActivFire Scheme

Schedule to Certificate of Conformity

Certificate num.	Registration date	Version	Valid until	
afp - 2861	10-Oct-2013	Number 11	Issue date 4-Apr-2024	30-Apr-2025

Producer's description

The STI, RP Series (Electrical Arrangement Series 01), re-settable, Type A, manual call points mimic the feel of breaking glass whilst offering the user the benefits and environmental advantages of a re-settable operating element.

This equipment uses a simple yet ingenious patented mechanism which consists of a rigid plastic operating element and an over centre spring mechanism. This arrangement provides real action on operation and simulates break glass activation.

An activation indicator drops into view at the top of the window after the 'ReSet' has been operated. The unit is then simply reset with a key and is ready for re-use straight away

Technical specification

The following details are a representative extract of the technical specification for the STI, RP Series (Electrical Arrangement Series 01), re-settable, Type A, manual call points and may be subject to change. Complete and current details should be determined from the designated producer's technical manual/data sheets.

Model	Description	Circuit type
RP-RF-01	Flush mounting (M200)	Conventional (Fitted with two internal resistors 470 (R1) and 680 (R2)ohms)
RP-RS-01	Surface mounting (M200 + M125)	
RP-RS1-01	Surface mounting (M223)	

Current Rating (Series 01)	3 Amps, 12 to 24 Vdc
Low Current Rating (Series 01)	1-100 mA, 5 to 12 Vdc
	0.1 A, 125 to 250 Vac
Housing and Mounting Box Material	Polycarbonate
Electrical Contact Material	Silver plated brass
Operating Temperature	-20 °C to +65 °C
Installation Terminal Conductor Size	0.5 mm to 2.5 mm
Colour	Red
Mounting	Flush or surface with back box

Supplementary information

Schedule of relevant articles

The following schedule is an extract of articles significant and/or related as evidence of conformity.
