Air cooler and water separator

SEC-LK-35-PVC

SEC-LK-35-ABS

Is used as an air cooler when the sampling pipe is in a room >60°C. Can also be used as a water separator in rooms with high amount of air humidity and / or condensing water because of temperature differences. For more details see the technical documentation

Additional housing for SecuriRAS SEC-ASD-535

SEC-ASD-Housing-Ex

The additional housing is designed for the integration of an aspirating smoke detector SEC-ASD-535. The additional housing should be used as additional personal protection in explosive areas. If there is danger of operations related damage (e.g. lift truck operations) to the aspirating smoke detector, the additional housing can serve as a mechanical protection measure.

Same as DFA 25-3 but equipment category IIA.

Noise reduction housing

SEC-Insulation-housing

The noise insulation housing is used as an accessory part for the aspirating smoke detector ASD 535 in areas where a low level of noise is required. If the ventilator noise from the aspirating smoke detector is found to be disruptive and changing the location of the evaluation unit is not possible, the aspirating smoke detector can be integrated into a noise insulation housing.
