SEC-RCU-HC

For stand alone mounting of the RCU.

Details
4RU 600mm Wide x 300mm Deep Wall Mount Server Rack

Our 4Cabling 4RU 600mm Wide x 300mm Deep Wall Mount Server Racks have been designed as a cost effective data management solution for installers and customers who require quick installation and great value for money. Our server racks are designed to be easily wall mounted and are made of solid Steel with welded construction for added strength.

The server rack is supplied fully assembled with solid top and base, plus removable side panels, front glass door all lockable for added security. This network cabinet provides the flexibility for customers who know exactly what they require of their server rack. Possible usage applications include housing small servers, DVR, security equipment, routers, patch panels, switches and rack mount equipment, Telephone Systems and PABX equipment and Network and Communications Equipment.

Cable access is achievable via roof or base by removable gland plates. 4Cabling server racks are built around universal 19" standards, to deliver compatibility with both leading vendor equipment manufacturers as well as OEM brands. A wide range of 19" server rack accessories are available from 4Cabling to compliment this cabinet as well as the rest of our range of quality server racks.
