

Marine Approved Mounting Back Box Model MBB-1

Standard Features

- 4 glanded cable entry holes (glands not supplied)
- Colour matched
- Approved detector and base range
- Provides moisture and dust resistant fitting
- Ideal for bulkhead fitting
- Suitable for marine use

Product Overview

Splashproof Base Backbox providing a splash proof and secure fixing for the Hochiki analogue and conventional marine approved range of sensors and detectors and their associated bases.

Description

The approved design of the MBB-1 provides a splash proof, secure fixing for the Hochiki CDX Marine Approved Range of Detectors and their associated Bases. It can be installed on a variety of different fixing surfaces and because it has been manufactured to match the colour of Hochiki's range of products, it provides an aesthetically pleasing solution where surface fixed devices are required.

The housing supports 20mm glanded entries, for zone or loop cabling access.

The detector base fits directly onto the MBB-1 and sits within a slight recess. This provides the accurate fit and the protection against dust and water ingress.

Specification

Ordering Code	MMB-1
Maximum Humidity	95%RH - Non Condensing (at 40°C)
Colour	Ivory or White
Weight (g) / Diameter (mm) / Height (mm)	123/102/38
Compatiable Bases	YBN-R/3, YBN-R/4M, YBN-R/6, YBN-R/6SK, YBO-R/5M, YBO-R/6, YBO-R/6RN, YBO-R/6RS, YBO-R/6PA
Fixing Centres	116mm
Maximum Wire Thickness	2.5 ² mm Cables
Approvals	Germanischer Lloyd
