

Product Overview

Dual red & amber coloured strobe lights for emergency evacuation systems.

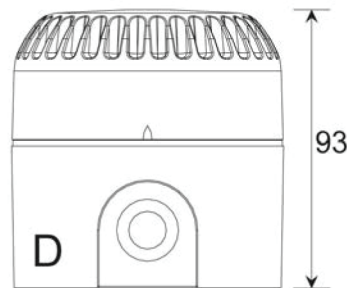

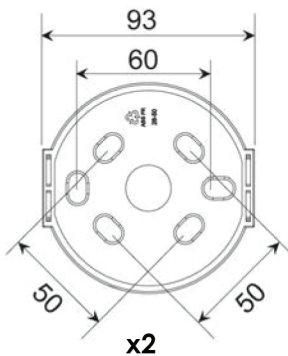

Housed on a white ABS plastic base, this unit is designed for professional installers of fire & evacuation systems.

Conduit knockouts are provided at either end of the dual base, or alternatively cable entry can be made through the back.

The tough polycarbonate lenses are resistant to impact and high temperature exposure.

Features

- ABS plastic base
- Low power strobes
- IP65
- Conduit knockouts
- Tough polycarbonate lenses

Technical Specifications

Voltage (nominal)	24VDC
Voltage (allowable)	9 – 60VDC
Current consumption	88mA
Flash rate (24VDC)	1 Hz
Flash energy	3.12 Joules/sec
Lens colour	Red (evac) & Amber (alert)
Weight	0.5 Kg
Conduit knockout	19mm
